

SWEETANGO FACT SHEET

ORIGIN

SweetTango's distinct taste and quality stem from careful breeding, expert horticultural practices and carefully selected growing locations. Apple breeders at the University of Minnesota crossed Honeycrisp and Zestar! to create SweetTango.

FLAVOR PROFILE

SweetTango is crisp and sweet, with a lively touch of citrus, honey and spice.

APPEARANCE

SweetTango is a blush apple with deep red coloration over a yellow breaking background.

AVAILABILITY

SweetTango is a seasonal variety available starting in the early fall, and available in stores throughout the United States and Canada.

GROWERS

The finest apple growers in the world produce SweetTango. The variety is marketed by Next Big Thing, A Growers' Cooperative. The organization includes growers in New York, Michigan, Minnesota, Wisconsin, Washington and Nova Scotia, Canada. The cooperative is headquartered in Lake City, Minn.

MANAGED VARIETY

SweetTango is a managed apple variety, which means only licensed growers can produce the fruit. Next Big Thing ensures that SweetTango apples are produced using only the highest-quality sites and growing practices.
